RES Nova Solar Power Connection

Notice of project approval

Thank you for your ongoing participation in the RES Nova Solar Power Connection project. The Alberta Utilities Commission (AUC) approved this project for construction on March 19, 2025.

Next steps

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

We plan to begin construction on April 1, 2027, and anticipate construction to be complete in August 2027.

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- transmission structure construction
- wire stringing on the transmission structures
- installation of new telecommunications tower

AUC approval

When the AUC approves a transmission project, it grants AltaLink Permits and Licences. The permits and licences for this project can be viewed on the AUC website at:
<https://www2.auc.ab.ca/proceeding/28876/>

To view the above link, you will need to log in to your eFiling account. If you do not have an account, select 'New Account' in the Login box and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca

If you have any issues accessing these Permits and Licences, please contact us at the phone number or email address below and we will mail a copy of the application to you.

Project background

RES is constructing a new transmission line to connect their approved substation and new solar power facility to the grid

To accommodate the connection, AltaLink is proposing to modify our existing 924L/927L transmission line.

AltaLink is also proposing to install a new telecommunications tower up to 29 metres tall within RES's new substation located in NW-3-22-26 W4M.
