**Provost to Edgerton and Nilrem to Vermilion (PENV) Transmission Development – Provost to Edgerton cancellation notification**

You are receiving this letter because you are near Provost to Edgerton and Nilrem to Vermilion (PENV) Transmission Development, and we want to provide you with an update on the Provost to Edgerton project.

In August 2021, we shared that the Alberta Utilities Commission approved the Provost to Edgerton project and that timing of the project was staged to align with generation and need milestones in the area.

Since then, the Alberta Electric System Operator (AESO) has determined that this development is no longer required and has officially cancelled the project.

Information from the AESO is also included with this letter as a reference. If you have questions about the cancellation, please contact the AESO at 1-888-866-2959 or [stakeholder.relations@aeso.ca](mailto:stakeholder.relations@aeso.ca).

We want to thank you for your patience and ongoing participation in the development of this project.

**Project background**

The Provost to Edgerton project included:

- Building approximately 48 kilometres of new 240 kilovolt (kV) transmission line from the Hansman Lake Substation located west of the Town of Provost to the Edgerton Substation located north of the Village of Edgerton
- Modifications at the existing Hansman Lake and Edgerton substations

**Contact us**

We are available to address any questions or concerns you may have. Please contact us at [stakeholderrelations@altalink.ca](mailto:stakeholderrelations@altalink.ca) or 1-877-267-1453. You can also view more information about the project at [www.altalink.ca/projects](http://www.altalink.ca/projects).

Sincerely,

Kris Gladue

Manager, Stakeholder Engagement
