Prominence Solar Project Connection – Project cancellation notification

Thank you for your participation in the Prominence Solar Project Connection. In November 2022, AltaLink began consulting with stakeholders on the proposed project.

This letter is to inform you that on May 30, 2025, PR Development Limited Partnership requested to cancel their system access service request with the Alberta Electric System Operator (AESO). As a result, AltaLink's related project is no longer required.

If you have questions about the cancelled request for system access service, please contact the AESO at 1-888-866-2959 or stakeholder.relations@aeso.ca.

Project background

To connect PR Development's previously proposed project to the grid, AltaLink had proposed to:

- modify the existing 138 kilovolt (kV) transmission line (called 172L) by:
 - removing one existing structure
 - adding two structures called line switches and one monopole structure
- construct approximately 80 metres (m) of new single circuit 138 kV transmission line
- install approximately two km of buried fibre optic cable between PR Development's proposed Elder Substation and AltaLink's existing Picture Butte Substation

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. You can also view more information about the project at <http://www.altalink.ca/projects>.

Sincerely,

Kris Gladue
Manager, Stakeholder Engagement
