**Pteragen Peace Butte Wind Facility Connection
Notice of project approval**

Thank you for your ongoing participation in the Pteragen Peace Butte Wind Facility Connection project. The Alberta Utilities Commission (AUC) approved this project for construction on June 19, 2025.

Next steps

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

We plan to begin construction in June 2026 and anticipate construction to be complete in November 2026.

Depending on where you are in relation to the project, you may see or hear:

- noise and construction crews
- transmission structure construction
- wire stringing on the transmission structures

AUC approval

When the AUC approves a transmission project, it grants AltaLink Permits and licences. The permits and licences for this project can be viewed on the AUC website at:
<https://www2.auc.ab.ca/proceeding/29945>

To view the above link, you will need to log in to your eFiling account. If you do not have an account, select 'New Account' in the Login box and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca

If you have any issues accessing these Permits and Licences, please contact us at the phone number or email address below and we will mail a copy of the application to you.

Project background

The project is located in Cypress County, approximately 22 kilometres south of Medicine Hat. It includes:

- constructing approximately 230 metres of new 138 kilovolt (kV) transmission line (to be named 600AL), including two new structures (one two-pole structure and one new H-frame structure)
- modifying AltaLink's existing 600L transmission line to connect to 600AL (this includes the addition of two new monopole structures and the removal of one structure)

- installing approximately two kilometres of underground fibre optic cable between the 964L/983L transmission line and Pteragen's proposed Tothill 219S substation
- constructing a short temporary transmission line to maintain reliable electricity in the area while construction is completed

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at <https://www.altalink.ca/project/pteragen-peace-butte-wind-facility-connection/>.

Sincerely,

Kris Gladue
Manager, Stakeholder Engagement
