Pteragen Peace Butte Wind Facility Connection Notice of application filing

Thank you for your ongoing participation in the Pteragen Peace Butte Wind Facility Connection. AltaLink submitted an application for the project to the Alberta Utilities Commission (AUC) on April 10, 2025.

Next steps

The AUC will review the application and can approve, approve with conditions or deny the project. The AUC may also host a hearing regarding the project. To learn more about the AUC process and how you can become involved please visit www.auc.ab.ca.

Where construction activities are required to take place on private property, we will contact you in advance to discuss the specific dates and times we will require access to your property.

The application

The application can be viewed on the AUC's website at www.auc.ab.ca.

To access the application, click on the 'Access to the eFiling System' button on the main page and log in to your eFiling account. If you do not have an account, select 'New Account' and follow the steps onscreen. Please note any questions or concerns regarding account creation and management should be directed towards the AUC at info@auc.ab.ca.

Once your account has been created and you have successfully logged in, type "29945" into the 'Go to...' search bar on the top of the page to locate the application. Alternatively, you can navigate to 'Find', click 'Proceedings' and enter "Pteragen" into the 'Description' search bar.

If you have any issues accessing the application, please contact us at the phone number or email address below and we will mail a copy of the application to you.

Project background

The proposed project is located in Cypress County, approximately 22 kilometres south of Medicine Hat. It includes:

- constructing approximately 230 metres of new 138 kilovolt (kV) transmission line (to be named 600AL), including two new structures (one two-pole structure and one new H-frame structure)
- modifying AltaLink's existing 600L transmission line to connect to 600AL (this includes the addition of two new monopole structures and the removal of one structure)

- installing approximately two kilometres of underground fibre optic cable between the 964L/983L transmission line and Pteragen's proposed Tothill 219S substation
- constructing a short temporary transmission line to maintain reliable electricity in the area while construction is completed

Contact us

We are available to address any questions or concerns you may have. Please contact us at stakeholderrelations@altalink.ca or 1-877-267-1453. Further information about this project and maps are available at <https://www.altalink.ca/project/ptergen-peace-butte-wind-facility-connection>.

Sincerely,

Kris Gladue
