**PROPOSED**  
 Sollair Solar Project Connection

Although there is no reason to believe that there are any errors associated with the data used to generate this product or in the product itself, users of these data are advised that errors in the data may be present.

**NOTES**

AltaLink has determined a final route for the fibre optic telecommunications cable. A six metre right-of-way would be required between Designation Point A5 and the Summit 653S Substation.

**STRIP MOSAIC SM1**

**PROPOSED**

**Sollair Solar Project Connection**

**NOTES**

The proposed underground fibre will be located within the existing 688L/752L transmission line right-of-way, the highway right-of-way and road allowance. Where the underground fibre line is proposed along Range Road 292, it will be located within road allowance on the west side of the road.
