### **TransAlta Riplinger Wind Project Connection – Project cancellation notification**

Thank you for your participation in the TransAlta Riplinger Wind Project Connection. In May 2023, AltaLink began consulting with stakeholders on the proposed project.

We want to inform you that on May 16, 2024, TransAlta Corporation requested to cancel their system access service request with the Alberta Electric System Operator (AESO). As a result, AltaLink's related project is no longer required.

Information from the AESO about the cancellation is included with this letter. If you have questions about the cancelled request for system access service, please contact the AESO at 1-888-866-2959 or [stakeholder.relations@aeso.ca](mailto:stakeholder.relations@aeso.ca).

### **Project background**

To connect TransAlta's Riplinger Wind Project to the grid, AltaLink had proposed:

- modifying the existing 955L/956L transmission line
- installing fibre optic cable

### **Contact us**

We are available to address any questions or concerns you may have. Please contact us at [stakeholderrelations@altalink.ca](mailto:stakeholderrelations@altalink.ca) or 1-877-267-1453. You can also view more information about the project at <http://www.altalink.ca/projects>.

Sincerely,

Kris Gladue  
Manager, Stakeholder Engagement
